

# The future of pre-screening solutions

**Let us take care of the worry, so you  
can get on with what you do best –  
finding top talent and building great  
teams**

<https://spotlite.services>

# Focus on What You Do Best

Imagine your teams being able to use our Home Office certified **Spotlite technology** to complete all regulatory ID, right-to-work checks in just 60 seconds remotely or face to face with the Applicant.

Our Customers love the intuitive, digital, RTW experience that applicants expect and understand, enhancing your brand in the process.

Revolutionary technology, that is quick and easy to use and, most importantly, keeps you compliant – from a certified IDSP, in compliance with the UK government standards and regulations for Right to Work and the DBS Code of Practice.

**No more wasted time and resources** – 60 seconds and you're done...Why would you do it any other way!

***Faster, Safer, Cheaper***

# Why use Spotlite for your RTW checks

## *Faster*

Our revolutionary mobile Spotlite technology uses the camera as the keyboard, removing the need for form filling online.

Applicants love how intuitive it is and you'll have a RTW certificate in your portal in 60 seconds.

## *Safer*

Built by Experts, our Spotlite system is built to high security standards. We are a Home Office approved IDSP and our tech is fully GDPR compliant, so you can take comfort that your data is in safe hands.

Our tech is trusted by thousands of applicants and customers.

## *Cheaper*

Our revolutionary fully digital Spotlite technology removes the need for lots of costly manual processing.

Check out our combined RTW and [DBS checks](#) which, together, halve the time and the cost.

## *AI Enabled & Customisable*

Our digital, AI-powered, cloud technology ensures the highest standards of accuracy, minimising risk and future proofing you for continually evolving regulations.

Our client portal enables you to track your applications and stay up to date every step of the way. Customise your access levels, branding, and API into your HR system.

# How it works

**You add the Applicant to your client portal and they receive an SMS message to download the Spotlite app.**

Spotlite asks the Applicant to take a selfie and take a photo of their passport & other ID.

- It scans the documents and can read the chip in the passport. It validates Home Office share codes too
- It records evidence that the documents have been checked by whom, when and where
- It captures key demographic information to support right to work checks
- It validates the applicant's identity against a range of global KYC databases and social media
- It highlights risks and provides you with a Certificate, an Audit trail and great MI

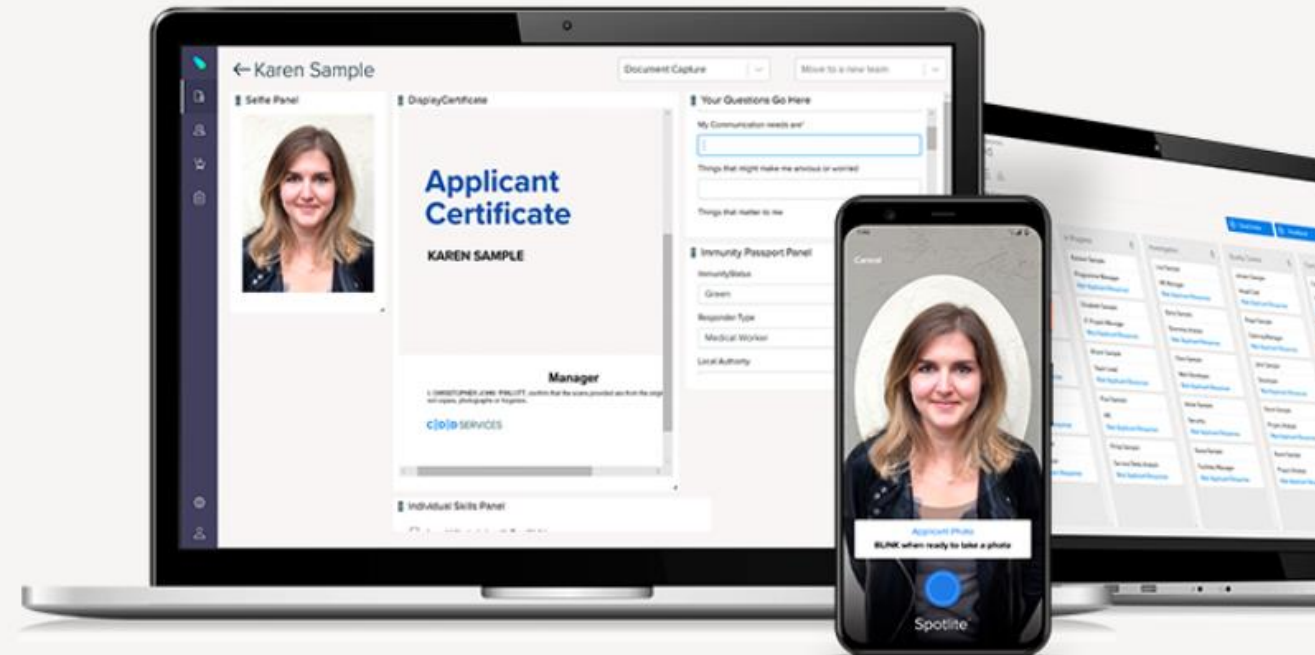

*In the time it's taken you to read this page your screening could be complete*

# NEW!!... Introducing Unique joint Identity Verification and DBS in one.

## Fully automated digital DBS criminal record checks

A user-friendly app that allows applicants to easily verify their identity whilst collecting and verifying the necessary data for DBS applications. No more switching between web and app journeys!
