

Introducing Hirechecks

with Caleb Chatfield
& Leah Lemm-Serruya

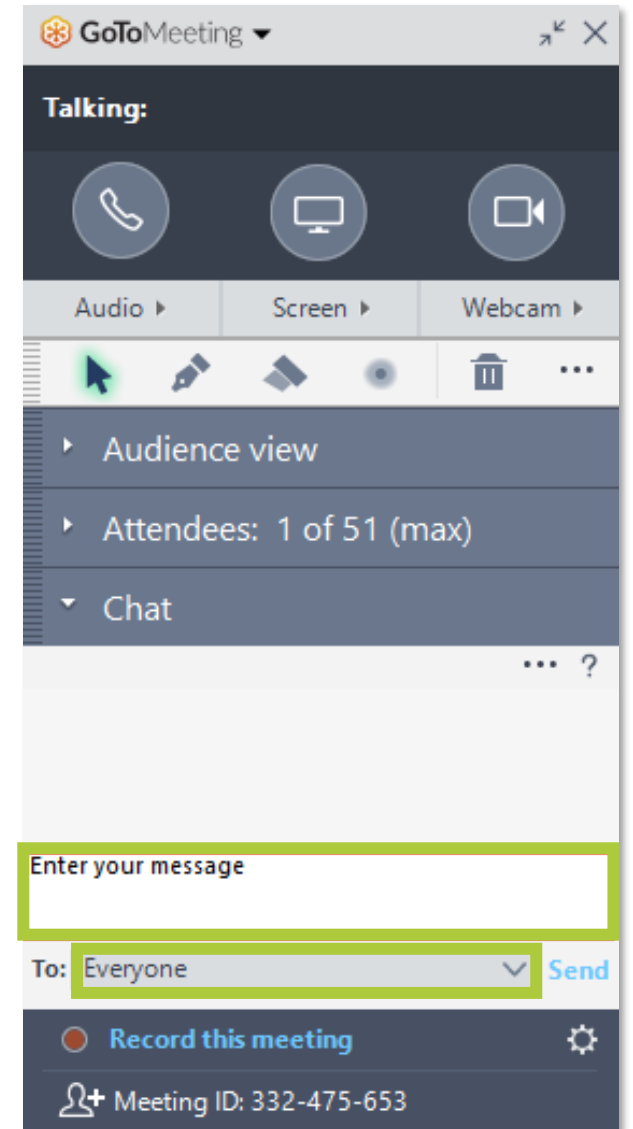

8th June 2021

How to ask questions

1. In your GoToMeeting Panel, expand the Chat section

2. Enter your question
3. To: Leah
4. Click Send

Agenda

- Features and benefits of the Hirechecks module
- Live demonstration of the new tool
- Any questions?
- Pricing information
- Helpful resources
- Hireserve ATS Help

Features

- Define default 'sets' of checks for different roles, and tick off checks as they're actioned.
- Hiring Managers can 'scan' in documents using the mobile device.
- No images are stored on the mobile device – records of documents head straight to the ATS database to be stored securely.
- A comprehensive dashboard allows you to review the process and track targets for individuals, teams and 3rd parties.

Benefits

- Easily keep track of which checks have been completed and which are outstanding.
- Save time heading to the office printer each time you need to scan a document.
- Reduce the risk of human error and security breaches by storing document information securely in the ATS, eliminating the need for paper copies or Excel spreadsheets.
- Analyse process efficiency and identify areas of improvement.

Demonstration

Any questions?

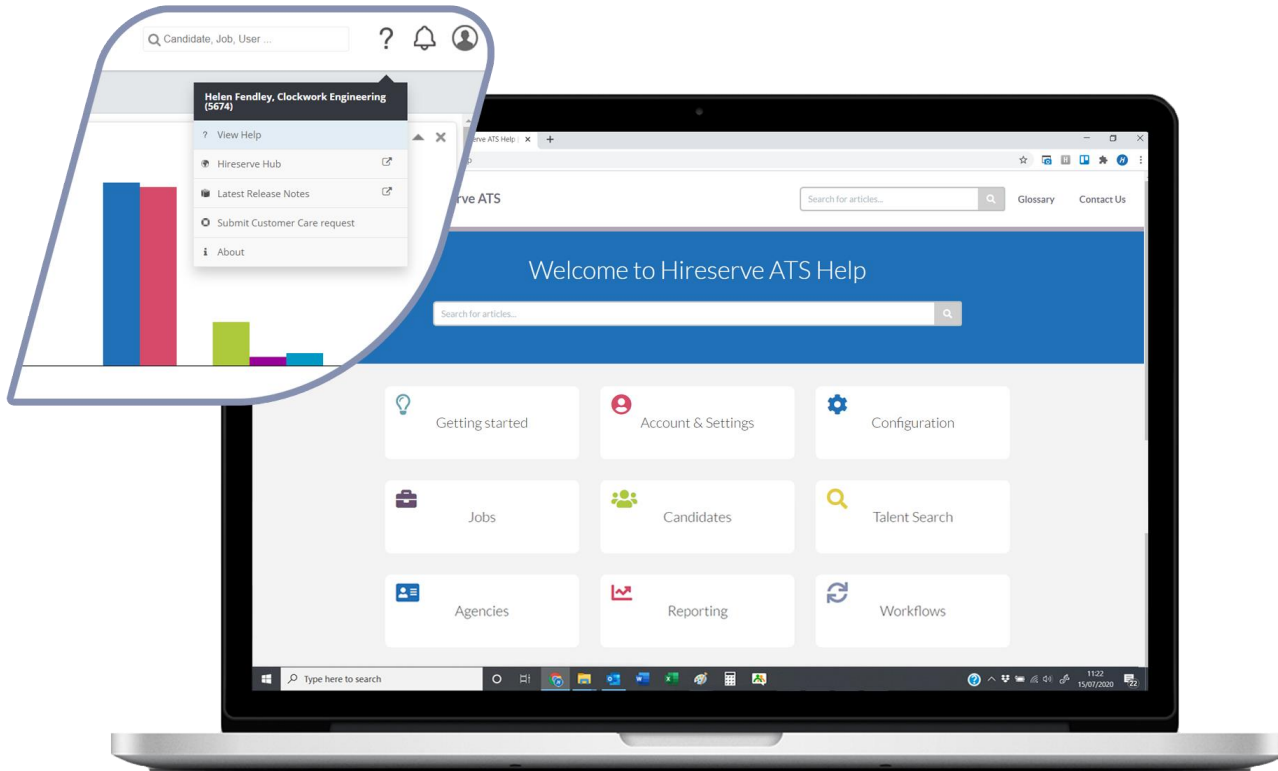

Pricing information:

- There is a setup fee and ongoing cost associated with the Hirechecks module

Helpful resources:

- [Introduction PDF](#)

- Simply get in touch with the Hireserve team at support@hireserve.com to let us know if you'd be interested in any new enhancements or integrations, or any training or consultation.

Hireserve ATS Help

- Browse articles for up-to-date assistance on every part of Hireserve ATS
- Search for help on specific features or screens using the search bar
- Browse the glossary if you're unsure of any terminology used
- Contact the Support Desk from within the system if you need further support

To access the Help platform, click the question mark icon in the top-right of the ATS, and then click 'View Help', or 'View Help (New)' for some customers.

Thank you!
