

Candidate Portal & Careers Site

Your organisation's candidate portal and careers site often form the first impression for candidates, so it's crucial to make it count. From providing tailored experiences based on different vacancy profiles, to centralising key tasks, Hireserve ATS supports everything your recruitment team could need.

Careers Site

- **Your Brand:** When you create a careers site with Hireserve ATS, the level of branding is completely customisable - from fonts and logos to imagery and styling.
- **Entirely Yours:** While your careers site will be linked to Hireserve ATS, Hireserve will not appear in the URL of your careers site.
- **Targeted Pages:** Different candidates are often seeking different information depending on the role they're after. From volunteering to apprenticeships, we support candidate experience by providing clear, tailored pages for different job seekers.
- **Our Experts:** There's no need to trouble your web developer. Hireserve has the in-house talent and resource to build your careers site with over 25 years of knowledge in what appeals to candidates.

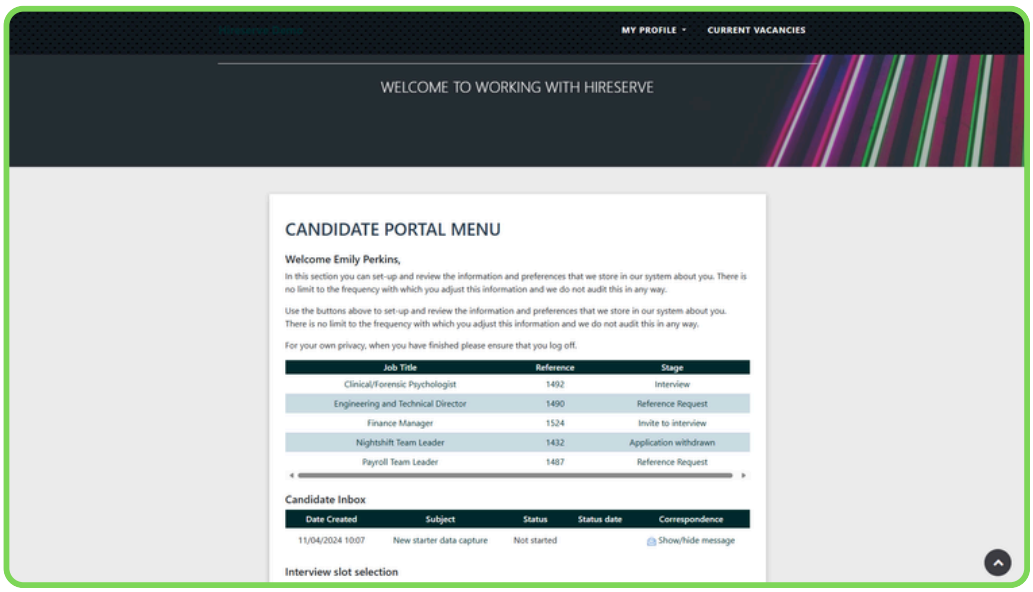

Candidate Portal

- **Seamless Management:** Once candidates have created a secure login, your team can collaborate with them every stage of the recruitment process through the portal, including references, interview scheduling, and conditional or unconditional offers.

- **Speculative Candidates:** Candidates can set up automatic notifications based on criteria such as desired location, working hours, and department. They can also set time-based rules on these alerts, such as how long they want to receive them for, and at what frequency.

- **Nurture Engagement:** As a dedicated channel for candidate tasks and vacancy tracking, the Hireserve ATS candidate portal operates as an ideal tool for candidate engagement, making communication simple and application tracking straightforward.

About Hireserve

Established in 1997, Hireserve delivers intuitive and innovative applicant tracking technology.

Powerful and agile, Hireserve ATS is trusted by in-house recruiters in a diverse range of sectors and across the world, including Kew Gardens, the RNLI and Merton Council.

Hireserve creates recruitment software with a human touch.
